

Exploring Adaptation Options of Climate Change and Health

Second Adaptation Forum 12-13
March, 2012

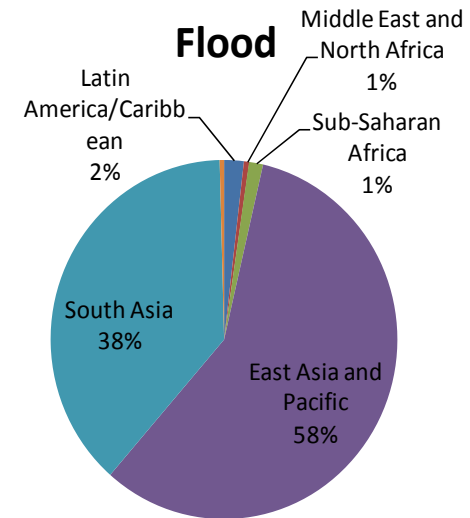

Rikard Elfving

Percentage distribution of people affected by extreme weather related events 1960-2007

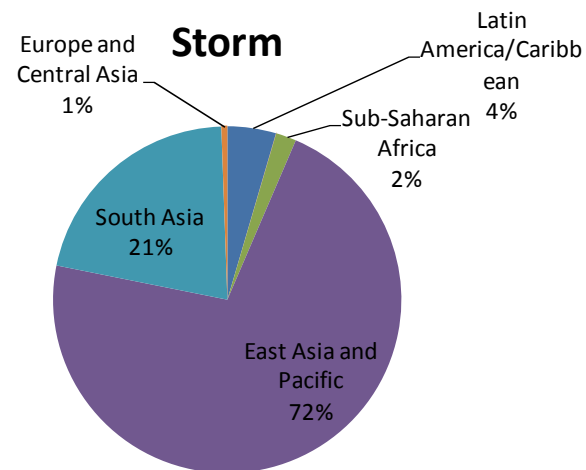

Drought

Flood

Storm

Adaptation Options in Health

- Information and Knowledge Support
- Health Care and System Strengthening
- Climate-Proofing of Health Care Infrastructure

Adaptation Options of Health Impacts in Other Sectors

Sector/program

- Transport
- Disaster Risk Management
- Urban Development
- Water

Response

- NMT
- Integrated early warning systems/tools
- Infra and new techs (Manila /Bangkok)
- Prevention of water and vector borne diseases

Translating knowledge to action

Accounting for
Health Impacts
of Climate Change

In 2012, ADB is planning to develop new **“Guidelines for Climate Proofing Investment in the Health Sector”**

What can ADB do?

Technical assistance

Analytical work and Policy dialogue

Partnerships
