

The Global Project *Mainstreaming Ecosystem-based Adaptation*

The international EbA Community of Practice (CoP)

The international EbA Community of Practice is a community for EbA practitioners, planners, think tanks and decision-makers

Objectives:

- ◇ knowledge and experience sharing and mutual learning beyond projects, institutions and regional boundaries
- ◇ joint development of harmonised approaches, evidence-based lessons learned and best practices for how to plan and implement effective EbA

Topics:

- ◇ tools, methods and entry points for mainstreaming EbA in planning and decision-making processes & international policies
- ◇ vulnerability and climate risk assessments
- ◇ evidence on effectiveness of EbA measures
- ◇ strategic communication of EbA benefits
- ◇ financing options and instruments
- ◇ monitoring and evaluation (M&E) for EbA
- ◇ enabling structures for EbA governance
- ◇ mainstreaming EbA into sectors (water, infrastructure and agriculture)
- ◇ gender-responsive EbA

Annual international EbA Community of Practice Workshop
to facilitate knowledge exchange and dialogue between CoP members

Format:

- ◇ on-site, hybrid or virtual workshop
- ◇ facilitated discussions on emerging issues of common interest, practical experiences on applied EbA approaches, methods and tools, and the functioning of the community itself
- ◇ field trips to learn about challenges and successes of EbA implementation
