

KOKEN - Multifunctional drilling rig including skid base rigs -

One of our features which distinguishes **KOKEN** from other competitors.

RPD-30LK

KOKEN RIG

Our RPD series has a high performance for **percussion** mechanism in addition to usual rotation mechanism and is applicable to **various** drilling methods. We are one of a few manufactures in the world especially for a skid base type machine with excellent quality.

RPD-75SL-H2

SKID BASE TYPE

Light weight: It can be transported and installed easily at the site because of its **light** body and separated power pack.
Applicability: Drilling work on a **steep** slope where large machine can not be **adapted**, for anchoring, water drainage and etc.

RPD-180C

CRAWLER TYPE

Powerful machine which is used in large diameter and depth compared with the skid base type and is also applicable to temporary & permanent anchoring for **foundation**.
